Inkform

A little less copy and paste.

An authored synthetic demonstration.

No personal handwriting samples are included.

nnnn nnnn nnnn

minimum minimum minimum

Same letters, slightly different movements.

Keep the ~~copy~~ character. Write something new.

Three limits. Different arrows, precise directions.

$$\lim_{x \to 2^-} f(x)$$

$$\lim_{x \to 2^+} f(x)$$

$$\lim_{x \to 2} \frac{x}{2}$$

Print this vector PDF at Actual Size / 100%.

The crossed-out word is an explicit example edit.

Personal profiles learn correction habits from reviewed samples.
